

ALC-3900

AROX Dishwasher

Hood Type

Features

AROX offers a 420mm high wash chamber for pass through operation within a compact footprint.

The patented Hood lifting system reduces the lifting effort required from 10kg of a traditional hood lift machine to only 3 kg.

Thanks to the advanced design the pump delivers a great quantity of water through the stainless steel top and bottom rotating wash arms to ensure sparkling result.

User-friendly Electronic Soft-touch Control Panel positioned within easy reach give the user the choice of three different wash cycles pending the amount of soil level and wash time required.

Specifications

Dimensions	Millimeters (mm)
Width	635
Depth	735
Height	1530
Wash Tank Capacity	30 litres
Water Supply Temp	15 – 50 deg C
Water Consumption	3 litres / cycle
Total Power	7.6 kw
Wash Pump Power	1.6 kw
Voltage	440V / 3Ø / 60Hz
Water Supply Pressure	2 – 4 bar
