

AD-515 / AD-525

AROX Tumble Dryer

Front Load

Features

- Front loading; reversible door may be open either from the left or from the right.
- Uni-directional drum tumble.
- Tumble dryer vents air in three different ways for your convenient selection – Front Venting, Fixed Rear Venting, or Extendable Rear Venting.
- Simple timer control.
- A clean inducted air flow passes through rear ventilation inlets, over the heating element, through drum rear perforations, through clothes load and lint filter, into induction fan chamber. Moist air is then forced out via exhaust venting.

Specifications

Dimensions	Millimeters (mm)
Width	595
Depth	530
Height	850
Capacity	Cotton 5 kg Delicates 2 kg
Rating	AD-515 = 1750 watts AD-525 = 2230 watts
Vent Size	Dia 60mm
Net / Gross Weight	32 / 33kg
Voltage	AD-515 110-120V / 1ø / 60Hz AD-525 220-240V / 1ø / 50-60Hz

Continuing research results in steady improvements; therefore, these specifications are subject to change without prior notice.
